PREPARED FOR SYSTEM SOLUTIONS PROS

Digital Operations & AI Automation

I’d like to join your team in a paid role looking after the website, customer follow-up, and simple AI tools that save time. I’m new to the electrical business, so I’d start by learning how you already work. You’d approve anything a customer sees.

What I’d take care of

- **Running the AI tools.** Setup, upkeep, and fixes.
- **Checking the AI’s work.** A weekly review of its drafts.
- **Keeping the website current.** Updated soon after you approve.
- **Staying within the $400 limit.** No surprises on either bill.
- **A short weekly update.** What was handled and what’s next.

How I’d go about it

- Learn what already works before suggesting changes.
- Ask when I don’t know something, rather than guess.
- Do what I said I’d do, and keep you posted.
- Leave every decision about customers, pricing, and the website to you.

My first 90 days

First 30 days	**Learn first.** Learn your services, how customers reach you, and who decides what. Aim to deliver a sheet of company facts for you to check, suggested homepage wording, and one draft service page.
Days 31–60	**Take on regular tasks.** Handle two regular tasks you choose, such as keeping the website current or following up on paperwork. Adjust a few templates to how you work, if they’re useful.

Days 61–90	**Decide together.** Keep the regular tasks going, write short how-to notes so anyone could pick them up, and talk about whether this is a good fit for both of us.

How we'd know if it's working

At 30, 60, and 90 days we'd look at simple questions: Did I get things done? Was the work accurate and useful? Did I communicate well? Your honest feedback would decide what happens next.

AI tool costs: $400 a month, never more

The company provides and pays for two AI subscriptions in its own name: Claude Max ($200) and ChatGPT Pro with Codex ($200). No pay-as-you-go credits, add-ons, or usage fees. If a limit is reached, the work waits. Any change needs your written approval.

What I'm asking for

A paid role with a small starting scope, agreed hours, and check-ins at 30, 60, and 90 days. I'm happy to start with the basics, and we'd agree pay based on the work you'd like me to do.

This is just a starting point for discussion. Everything here can change to fit your schedule and priorities. You'd decide what gets published, what I can access, and anything promised to customers.
